Hiring a Lawyer is an Important Decision

YOU MAY BE CONFUSED or stuck in a difficult situation – one you probably never experienced before.

We understand your primary concerns are getting answers and getting justice. You need an experienced and trusted resource you can turn to for guidance.

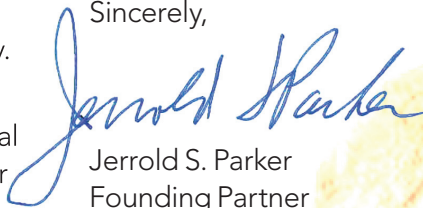

Parker Waichman's lawyers embrace this role. Not only do we fight with dogged determination to make things "right" for you, we also provide you with the information and guidance you need to make informed decisions. Parker Waichman is there to protect you every step of the way.

You see, Parker Waichman doesn't just provide you with legal representation. We stand by your

side as you go through the legal process so that **justice is delivered with one person in mind: YOU.**

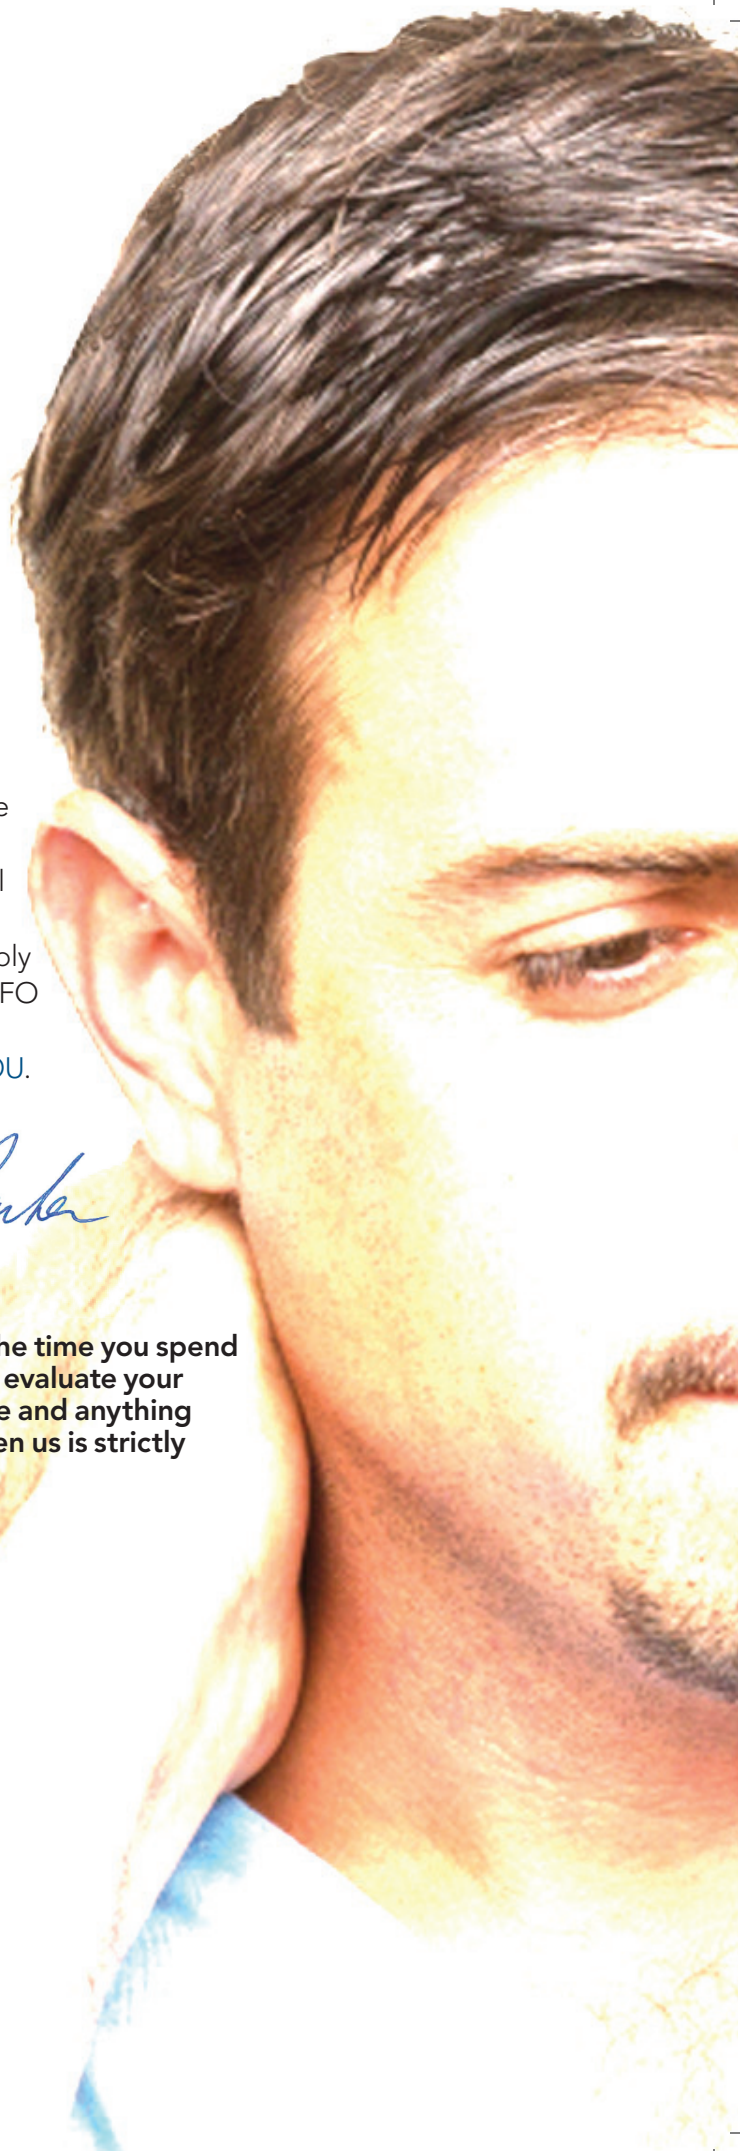

So whether you're ready for one-on-one legal guidance or just need answers to general questions about your situation, simply call 1-800-LAW-INFO (1-800-529-4636). We are here for **YOU.**

Sincerely,

Jerrold S. Parker
Founding Partner

P.S. Remember, the time you spend talking with us to evaluate your case is always free and anything discussed between us is strictly confidential.

With Parker Waichman, Justice is Delivered With One Person in Mind: You

MANY INSURANCE companies prefer dealing directly with you after you or a loved one sustains damages and/or injuries. They would rather settle your claim directly with you without the benefit of guidance from an attorney. Parker Waichman knows resolving your claim this way could be a great mistake.

When someone attempts to handle their own case, they risk getting far less compensation than they're entitled to.

Remember who insurance companies work for – their owners. Like any business, insurance companies want to make money.

They want to pay the smallest amount of compensation possible to resolve a claim.

Our advice: Don't talk to the insurance company – talk to Parker Waichman.

Remember, at Parker Waichman, **justice is delivered with one person in mind: YOU.**

Contact Parker Waichman today to ensure your rights are protected.

According to research conducted by the Insurance Research Council, a research organization created and funded by the insurance industry, injured victims represented by personal injury attorneys get settlements nearly 3.5 times greater than people who settle with insurance companies on their own.*

Parker Waichman Takes on the Insurance Companies and Their Attorneys ... So You Can Focus on You

AT PARKER WAICHMAN we understand you want justice – but you might not know how to get it on your own. After all, the legal process is complicated and often difficult to understand.

If you've never hired a lawyer before, you are probably uneasy about the process. These feelings are common – you are not alone.

That's why we are with you every step of the way. Parker Waichman will focus on getting you the justice you deserve ... so you can focus on you.

Here's why you need Parker Waichman:

■ **We have experience handling cases like yours.**

Parker Waichman's attorneys practice exclusively in select areas of personal injury, defective drugs, defective medical devices, environmental and toxic substances, consumer fraud, and other areas where someone's rights have been compromised.

■ **You get an experienced team.**

You will be represented by a Parker Waichman team very familiar with the legal issues in your case. Parker Waichman is dedicated to doing everything we can to ensure that you recover the maximum amount you're entitled to. You need a team that knows how to explore all avenues of financial recovery that may be available to you.

■ **Parker Waichman is sought out by other attorneys for our knowledge and experience.**

We receive thousands of referrals every year from attorneys around the nation.

■ **We work on a contingency-fee basis.**

You never pay out-of-pocket for representation. Fees and expenses are only collected if you recover.

■ **Our attorneys handle your entire case.**

Parker Waichman's accomplished attorneys understand how to build and strengthen your case so when they negotiate with the insurance companies and their lawyers, they do so from a position of strength. When necessary we take your case all the way to trial. We will fight to get you a financial result that we believe will significantly exceed what you might get on your own, even after the fees and expenses are deducted*.

■ **We have extensive experience inside and outside the courtroom.**

Some cases can, with the proper preparation and presentation, be successfully settled before trial. However, at Parker Waichman we never assume that a case will be settled. We prepare every case as if it's going to trial. In our experience it's the only way to maximize the recovery for our clients. Lawyers are often depicted as courtroom advocates, but few ever actually develop the skills needed to try a case in a courtroom. Thanks to our experience and the skills we've developed, Parker Waichman has a national reputation with judges and opposing counsel.

■ **We are always available to answer your questions.**

Your legal team at Parker Waichman is available when you need them – day or night. We use state-of-the-art technology and a proprietary case management system to ensure that we have the most up-to-date information about your case at all times.

The bottom line is that justice is delivered with just one person in mind: YOU.

You can review the bios of the Parker Waichman team members by visiting the "Our Team" page at www.yourlawyer.com.

*A report by the Insurance Research Council (IRC), found that injured victims represented by personal injury attorneys received nearly 350% more than they would have received by dealing directly with an insurance company.

Parker Waichman Has Experience Specific to Your Legal Situation

PARKER WAICHMAN attorneys work on cases like yours every day.

All the practice areas below are assigned to an experienced team that will aggressively go to bat for you against defense lawyers and insurance companies, both inside and outside the courtroom.

Personal Injury

Each year people are victims of accidents caused by the negligence of others and are injured as a result. Personal injuries can range from minor to severe.

Parker Waichman is a leading national personal injury law firm. Let us assist you in fighting for the compensation you deserve.

Motor Vehicle Accidents

Motor vehicle accidents can cause catastrophic injuries, permanent disability and financial devastation. The injuries from an automobile or truck collision can last for years – even a lifetime. You have the right to seek compensation for all of your injuries, damages, lost wages and medical expenses.

Put Parker Waichman to work for you.

Tractor Trailer Accidents

Speeding, driver fatigue and increased pressure to deliver freight cheaper and more quickly are the most common causes of accidents involving tractor trailers. Due to the risk truck drivers present to the public, trucking, maintenance companies and warehouses are generally required by law to carry higher insurance coverage than passenger vehicles. This increased coverage – as well as the safety regulations applying to tractor trailers – can potentially lead to higher compensation for you.

Contact Parker Waichman today.

Construction Site Accidents

The risk of injury is always present at construction sites. You may be entitled to workers compensation benefits if you've been injured, but there may be additional avenues of recovery to fully compensate you for all of your damages. Keep in mind, worker's compensation can cover some medical bills and lost earnings, but it may not adequately compensate you for permanent losses and disabilities due to a serious injury.

Parker Waichman attorneys work for you when you can't work yourself.

Medical Malpractice

Health care professionals must follow appropriate standards of care for diagnosis, testing, treatment, surgical procedures and post-operative care. When this standard of care is violated, and a patient is injured, a medical malpractice lawsuit against the responsible party may be possible. Parker Waichman's role is to prove two key factors: your doctor or medical professional failed to treat you properly and, as a result, you were harmed and deserve compensation.

Wrongful Death

Negligent conduct far too often causes the most extraordinary damage imaginable – death. In situations where the negligence of another has caused the death of a loved one, emotions run high and the legal system can be complicated and difficult to manage. If someone you love was victimized by the negligence of another, Parker Waichman can help.

Premises Liability

Trip and fall accidents, dangerous or defective conditions and falling merchandise are considered premises liability cases.

Parker Waichman has successfully handled many cases for people who were seriously injured or killed as a result of a premises defect at retail stores, convenience stores, commercial properties, residential homes, apartments, restaurants, amusement parks, shopping malls, and other kinds of locations.

Let Parker Waichman assist you in fighting for the compensation you deserve.

Defective Drugs

Defective drugs, with significant adverse and even deadly side effects, injure tens of thousands of people each year. If you or a loved one was injured due to a defective drug, do not wait to take action. Parker Waichman has extensive experience with defective drug litigation and is ready to help you get the justice you deserve.

Defective Medical Devices

Defective medical devices may pose significant serious health risks; sometimes causing injuries more serious than the problems they are designed to help.

Parker Waichman's attorneys are committed to working diligently and aggressively on your behalf when you are injured due to a defective medical device.

Nursing Home Abuse

Many nursing home residents never mention instances of abuse, fearing the mistreatment will get worse or they will become a burden to their families. Others simply cannot communicate due to physical or mental limitations. Countless incidents are never reported to the proper authorities. At Parker Waichman we have a team of attorneys who limit their practice to nursing home abuse litigation.

Overtime Law, Wage and Hour Disputes

Employers violate the Fair Labor and Standards Act (FLSA) every day by failing to pay employees the legally required minimum wage, overtime pay, or other compensation. These violations occur in every type of business, the most common being the hospitality and service industries where long hours and tipping are typical. If your employer is not paying you for all of the hours you work, you may be entitled to compensation. Call Parker Waichman today.

Water & Property Pollution

One of today's most widespread problems is pollution to underground water sources due to the controversial process known as hydraulic fracturing or "fracking." You may live in or near a region where "fracking" takes place. If your property or water becomes contaminated you may be entitled to compensation. Parker Waichman has experience in water and property pollution cases. Call for your free evaluation today.

Whistleblower/Qui Tam Claims

There are serious penalties under federal law and some state laws for knowingly submitting false claims to the government for payment, often times by claims to Medicare and Medicaid. If you are aware of false claims (these false claims often involve hundreds of millions or billions of dollars) and bring this information to the government, you may be entitled to a substantial reward as a "whistleblower". The government generally uses a "first to file" rule, but there are exceptions to that rule that we have successfully utilized. Explore your rights now with Parker Waichman. Call 1-800-LAW-INFO.

Toxic Substances/Environmental Claims

Unfortunately, oil and chemical spills and the release of other dangerous substances into the environment occur just about everywhere. When this happens, it may pose serious health risks to you and your family. You have the right to work in a safe environment, live in a safe home and enjoy food, water and air that's safe for you and your family to eat, drink and breathe. Parker Waichman understands the applicable local, state and federal laws and is prepared to evaluate your case today.

For detailed descriptions of these and other practice areas or to request a no-cost case review, call 1-800-LAW-INFO (1-800-529-4636) or visit us online at www.yourlawyer.com
